Allowable Subject Matter

1. **Claims 1-5 and 17** are allowed. The following is an examiner's statement of reasons for allowance: It appears that the prior art of record fails to describe or suggest a system comprising a remote control and a consumer electronic device wherein the remote control transmits a signal causing the consumer electronic device to download information and in response, the consumer electronic device transmits a signal to the remote control that indicates the status of the download process. The remote control uses the signal from the consumer electronic device to provide an indication (on the remote control) of the download status of the consumer electronics device. A progress/status indicator is interpreted as an indicator of the progress or degree of completeness of a download process. These along with further limitations set forth by the claims appear to render the application allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
